44 ## Import Our Vaccine Provider and Supply Data
45
46 This data comes from the Texas Department of State Health Services and contains the list of vaccine providers across the state of
  [this page](https://dshs.texas.gov/coronavirus/additionaldata/). They use it for their own interactive mapping application of vac
  provider is assigned a type and has a report of how much vaccine supply they have for each of the three approved vaccines. We'll
  to read in the data straight from the DSHS website. This will help make sure our analysis is "living", meaning any chart we make
  from DSHS gets updated, and "living" means it can be run in their RStudio IDE and
  did.
